PROJECT EXPERIENCE

LIFE SIZZLE – Personal Life Lessons Sharing Platform.

[Live](#) | [Client](#) | [Server](#)

Tech Stack: Next.js, React, Express.js, MongoDB, Better Auth, Stripe, Tailwind CSS, HeroUI, MUI.

- Built a full-stack platform for creating, sharing, and managing personal life lessons with role-based authentication and premium content support.
- Integrated Better Auth (Email & Google), Stripe payments, search, filtering, likes, favorites, comments, and analytics dashboards.
- Developed user and admin dashboards featuring content moderation, user management, reports, and platform analytics.

PAWSNEST – Pet Adoption Platform.

[Live](#) | [Client](#) | [Server](#)

Tech Stack: Next.js, React, Express.js, MongoDB, Better Auth, Tailwind CSS, HeroUI, DaisyUI.

- Developed a full-stack pet adoption platform where users can browse pet listings, view details, and submit adoption requests.
- Implemented complete CRUD functionality for pet listings, allowing users to post, update, and delete pets available for adoption.
- Built an adoption management system where pet owners can accept or reject adoption requests, while applicants can track and cancel their requests.

ROYALS BOOKS – Online Library Management System.

[Live](#) | [Client](#)

Tech Stack: Next.js, React, MongoDB, Better Auth, Tailwind CSS, HeroUI, DaisyUI.

- Developed a responsive online library platform where users can browse books, view detailed information, and search books by title.
- Implemented secure authentication and user profile management with editable personal information.
- Built reusable UI components, including author showcase, promotional marquee, and contact section for an improved user experience.
